Eco-Green Floor Finish Stripper & Emulsifier

***Eco-Green® Floor Finish Stripper & Emulsifier targets public works professionals who need to remove floor sealers without toxic solvents***

***Online PR News – 02-March-2010*** WOBURN, MA U.S.A. – March 2, 2010 – Daimer Industries® Inc., a North American supplier of green cleaners for public sector cleaning professionals worldwide, shipped Eco-Green® Floor Finish Stripper & Emulsifier, a solvent-free solution that strips floor finishes without harming floor surfaces or the environment.

“This product is low-odor, low-foaming and ammonia free,” explained Daimer.com manager Matthew Baratta. “These new green cleaners even leave behind a natural, fresh scent.”

### Green Cleaners Strip Floors

Floor Finish Stripper & Emulsifier is a new addition to the Eco Green line of green cleaners for floor care. The formulation emulsifies floor finishes and sealers without noxious fumes. The green [cleaning chemicals](#) are based on green chemicals that biodegradable readily in as little as thirty days, according to laboratory tests. The green cleaners in this floor stripper earned zero ratings in the NFPA diamond of hazards.

The green cleaners in this formulation use Micro-Blasting® technology and non-toxic particles that are up to 100 times smaller than the cleaning particles used in competing products. The new green cleaners can be used undiluted for heavy buildups or diluted for routine floor stripping. The products can be applied with or without mechanical agitation. After applying, the slurry can be removed with a mop, extractor or vacuum. The formula is concentrated and available in 5-, 15-, 55-, 275- or 5000-gallon containers.

### Green Cleaning Chemicals for Floors

Daimer®'s Eco Green public works line also includes other floor products: carpet cleaners, tile and grout cleaners, concrete cleaners, and multi-purpose hard surface cleaners.
