Eco-Green Glass & Multi-Surface Cleaner

Environmentally-safe Glass & Multi-Surface Cleaner targets the public works sector with a broad-use formulation that saves time and money.

Online PR News – 09-March-2010 WOBURN, MA U.S.A. – March 9, 2010 – Daimer Industries® Inc., an established vendor of [green cleaning chemicals](#) for the public sector, has shipped Eco-Green® Glass & Multi-Surface Cleaner. This new non-streaking green cleaning formula removes oils, grease and more from glass, chrome and other shiny and non-shiny surfaces without dangerous cleaning compounds.

“This multi-purpose glass and green cleaner removes a variety of muck from myriad surfaces,” noted Matthew Baratta, Daimer.com manager. “Our chemical engineers developed a formula that cleans and even prevents the re-disposition of soils on surfaces after they’ve been cleaned.”

Green Cleaning Chemicals for Glass and More

Glass & Multi-Surface Cleaner is a new addition to Eco Green's line of multi-purposed green cleaning chemicals. The formulation is designed for use on walls, floors, counter tops, bathrooms, food-handling areas, stainless steel, mirrors, chrome and glass. The green cleaning chemicals in this solution have been formulated to biodegrade rapidly and in as little as twenty-eight days. Daimer®'s Eco Green products earn all zero ratings for health, fire, reactivity and special categories in the NFPA's hazard ratings chart.

The new green cleaner uses the same nano-chemistry, or Micro-Blasting® technology, found in Daimer®'s other Eco Green® green cleaning chemicals. The technology destabilizes the bonds holding together dirt and oil residues. An encapsulation process allows residues to be quickly lifted from cleaned surfaces and discourages the re-disposition of dirt after cleaning. The new multi-purpose green chemical formula is concentrated and can be applied by hand or power washing apparatus.

Green Cleaning Chemicals for Multiple Surfaces

Daimer®'s Eco Green public works line also includes other green cleaning chemicals: concrete cleaners, metal cleaners and tile and [windshield washer fluid](#).
