Daimer XTreme Power XPH-9350

Daimer®'s high-heat XTreme Power® XPH 9000 line includes two models that generate up to 34.5 bar of pump pressure.

Online PR News – 09-March-2010 WOBURN, MA U.S.A. – March 9, 2010 - Daimer Industries®, a Massachusetts-based company recognized for industrial cleaning systems worldwide, is now offering 50 Hz models of its 9000 series of carpet extractors. These heated [carpet cleaner](#) systems include a machine offering pressures reaching 34.5 bar and water lift of up to 635 cm.

"These are 50 Hz versions of the industrial carpet cleaner units we've been offering in North America," said Matthew Baratta, the spokesperson at Daimer.com worldwide. "The heated XPH-9000 line offers some of our best [carpet cleaning machines](#) for tough applications."

Carpet Cleaner Systems with Maximum Heat and Suction

The 9000 line includes three machines: XPH-9350, XPH-9605 and XPH-9655. All three units offer heated steam cleaning to 98.9°C. The carpet cleaner machines also include 64.4 L solution chambers, 56.8 L recovery chambers and low moisture design to speed the drying carpets.

The XPH-9350 generates pump pressures of up to 10.3 bar, water lift measuring 381 cm and air flow measured at 94.4 liters/s.

The XPH-9605 and XPH-9655 carpet cleaner systems provide 34.5 bar of pressure. The former offers water lift reaching 635 cm and air flow measured at 47.2 liters/s. The latter has a water lift measuring 381 cm, but air flow measured at 94.4 liters/s

The new carpet cleaner machines are available to customers in most countries and minimum orders apply. For additional information about Daimer® [carpet cleaning extractor](#) systems, carpet shampooer machines and other steam carpet cleaner machines visit www.daimer.com/carpet-cleaner/ or call Matthew Baratta at (888) 507-2220.
