

CustomSlipcoversNow.com Offers A Fresh Spring Collection Of Custom Slipcover Fabrics

Updating furniture for spring is easy with the large variety of fabrics available to order a custom slipcover. CustomSlipcoversNow.com offers free fabric swatches and custom fitted slipcovers that are made to order in one week.

Online PR News – 10-March-2010 WOODSIDE, NY - CustomSlipcoversNow.com, a manufacturer of custom fitted slipcovers, now offers consumers a choice of more than 300 fabrics, including many colors and patterns that spruce up furniture to infuse Spring colors into the home after a long winter.

The online retailer allows customers to measure the exact specifications of their furniture in order to get a tailored [custom slipcover](#). CustomSlipcoversNow.com has a quick turnaround time of just five days so that redecorating for spring can be done immediately.

The website allows customers to browse fabric swatches by color, pattern or type of fabric. Available fabrics include durable cotton, denim, micro-suede and outdoor fabrics. Other fabrics include damask, stretch, woven, tapestry and chenille. Designs include solids in a large variety of bright and muted colors, florals, plaid, stripes, geometric and novelty-themed and designer fabrics. All fabrics can be ordered as a custom slipcover or by the yard. Fabric by the yard is perfect for those who want to create a set of drapes or curtains that matches, contrasts, or coordinates with slipcovers.

"We stand apart from other slipcover manufacturers because we carefully select all fabrics from fine print mills that are dedicated to quality and fine craftsmanship. We also provide the customer with free fabric swatches so that customers can see and feel the fabric before ordering a custom slipcover," said Lillian Nazginov, President, of CustomSlipcoversNow.com.

An online measuring guide helps consumers provide exact measurements so that the slipcover can be tailor-made for each piece of furniture. Custom slipcovers are far superior to ready made slipcovers that bunch and slip each time someone sits on the chair or sofa. In contrast, custom slipcovers that have been made to order have the look of upholstery with the versatility of slipcovers than can be removed and machine-washed.

About CustomSlipcoversNow.com:

CustomSlipcoversNow.com is a subsidiary of Easy Fit Inc., a privately owned furniture and slipcover manufacturer that has been in the industry since 1983. The company started as a small operation and rapidly became one of the fastest-growing furniture and accessory manufacturers and online retailers in the country.
