

Omaha SEO Specialist To Provide Professional Web Video Production

Calvin Hesson, a Senior SEO Specialist based in Omaha, Nebraska, has teamed with a Web Video Production Firm from Long Island, New York to produce high quality, yet low cost web videos.

Online PR News – 11-March-2010 “The ability to produce high quality Web Video Commercials that will attract potential buyers includes the right balance of talent and technology. [Web Video Marketing](#) is something we’ve been doing for a while now, but we really wanted to improve the production value of our web videos. We felt that by partnering with an established [Web Video Production](#) company we could accomplish that goal and better serve our clients”, states Mr. Hesson of SEO-Company-Services.com

[SEO Company Services](#) is already a very successful SEO (Search Engine Optimization) company, with 100% of their clients in the Top 10 of Google for very competitive keyword phrases. However, they saw where the market was heading relative to web video and they want to be well positioned to take advantage of that marketing opportunity for their clients.

With PC-based Web Video Production Suites, web sites like YouTube.com and Google Video and streaming video it is only a matter of time before most Professional SEO firms are doing VSEO (Video Search Engine Optimization). The company has already produced web videos for several of their clients including an International Art Restoration company based in California and a local Mudjacking company in the Midwest.

“We believe the combination of high quality web video production at a great price and the ability to successfully implement a comprehensive Web Video Marketing Program will give our clients new and unique channels to reach their customers.” said Mr. Hesson.

Their new Web Video Production web site can be seen at <http://www.buzz-alert.com>, and their SEO web site can be found at <http://www.seo-company-services.com>
