Little Rock Catering Chicken Dinner

The Rx Catering Company In Little Rock springs into the new season with a couple new and delicious entrees as well as discounted pricing for their local and online customer base.

Online PR News – 11-March-2010- The [Little Rock catering](#) company has decided to offer some extra discounted menu items in celebration of the warmer weather and to welcome in Springtime. “The new menu options we have discounted will be added to our menu this week, and are a delicious and light meal which we feel mirrors the season” says Manager of Little Rock's Rx Catering. “We felt like it was time to give thought to the season, and add foods that are more in tune with that.”

Both the new items are chicken dishes and are served with a light salad, roll, and iced tea. The first one is a sweet and tangy Caribbean Jerk Chicken breast topped with glazed pineapples over a bed of rice, served with a cranberry walnut salad, roll and iced tea for \$7.95 per person. The Other dish is a Honey Pecan Breaded Chicken Breast served with a light garden salad, roll, and iced tea for \$8.25 per person.

These items will be put on the Little Rock Catering Menu and website this week and are sure to generate some buzz. “We have noticed quite a lot of our customers have expressed interest in our menu having something that is more connected to the season and that isnt very expensive...we have answered that concern with our new and delicious chicken items.” says the Little Rock catering manager.

It seems the [Little Rock caterer](#) has some other up coming announcement to make involving their on line ordering, delivery fees, and pricing. “We are planning on changing that up so the customers will not have to pay so much to enjoy our food.” The new fees are based on the zip code of the delivery destination which means if you are placing your order on-line, you will need to enter a zip code in addition to your address. You can find out the specifics and how this relates to you by visiting their website at www.rxcatering.net or can inquire by calling them at (501) 221-3929.
