

## bestwebdesignagencies.com Names the Best CakePHP Developer for March 2010

*The best Cake PHP application development firms have been ranked for March 2010 by bestwebdesignagencies.com, the independent authority on the best web development firms. Thousands of applicants seeking to be recognized as the best CakePHP developer were filtered through by an experienced research team.*

**Online PR News – 12-March-2010** Plymouth, IN – The independent authority on the [best web development](#) firms, bestwebdesignagencies.com, has named the [best Cake PHP application development](#) firms for March 2010. An experienced research team reviewed thousands of firms seeking the [best CakePHP developer](#). The companies on this list have been recognized as the top firms to assist in providing dynamic elements to your website with the CakePHP platform.

CakePHP is an open-source development framework for PHP development. It provides a basic structure for rapid application development for the web. Using a platform like CakePHP allows developers to code faster without losing the flexibility offered within PHP coding. The firms on this list are the best at providing CakePHP development.

The March 2010 top CakePHP development firms are:

---

### Are the developed applications able to run the same under different browsers and operating systems to ensure the best use for most users?

---

1. Digicorp
2. Loadsys Consulting
3. WBC Software
4. Perception System Pvt. Ltd.
5. Dotsquares
6. Candid Software
7. Bit Builder Consulting
8. VirtuelInfo
9. Softway Solutions, Inc.
10. Web Infology

An experienced research team puts each firm seeking to be ranked through an extensive evaluation process in order to find the best firms. They also contact at least three clients of each vendor in order to obtain their perspective of the firm. Questions are asked of clients such as, “Is the vendor quickly able to produce the coding for a project yet able to maintain the quality?” or “Are the developed applications able to run the same under different browsers and operating systems to ensure the best use for most users?”.
