In most cases, debt consolidation and debt consolidation loans achieve debt relief through lower interest rates, a fixed interest rate, and the waiving of fees and penalties associated with accounts that are past due. Debt consolidation loans in most cases are achieved through a home equity loan. Debt consolidation and debt consolidation loans as offered by newly launched Debt Relief are extremely valuable towards paying off credit card debt, especially credit card debt that is at high interest.

Another surprising aspect of debt consolidation and debt consolidation loans is the fact that a variation of these programs is available for consolidating student loans as well. In student loan debt consolidation, a debt consolidation loan company purchases the existing loans. The current year's student loan rate is what determines the rate for the debt consolidation loan.

The good news is that debt consolidation and debt consolidation loans by newly launched Debt Relief are highly effective at reducing and eliminating debt, particularly credit card debt, and debt consolidation and debt consolidation programs are quick and easy to qualify for.
