***InBoundMarketingPR announces that BionicCigs.com (BionicCigs) has come on-board as a new client. BionicCigs products provide a healthier and less expensive solution for cigarette smoking.***

**Online PR News – 16-March-2010** InBoundMarketingPR announced that [BionicCigs.com](http://BionicCigs.com) (BionicCigs) has come onboard as a new client. BionicCigs provides a healthier and less expensive solution for cigarette smoking. Bionic cigarettes operate much the same way that an actual cigarette does; instead of smoke, a nicotine vapor is produced that is tar and odor free. The Bionic Cigarettes are also free of most of the other harmful chemicals found in the burning of actual cigarettes.

The Bionic cigarettes each have a battery and atomizer along with a cartridge filled with liquid nicotine. When the user inhales the device switches on; this operates the heating element to vaporize a small part of the liquid nicotine. Instead of smoke, the user inhales a vapor which tastes like a cigarette but without the risk of disease and other harmful side effects of actual smoking. The liquid nicotine is flavored with either a regular flavor or menthol to replicate actual cigarette taste.

Another benefit is that you can use the Bionic cigarettes almost anywhere because no smoke is produced. With all the new laws and restrictions on smoking in bars, restaurants and other public places, BionicCigs is a much healthier and acceptable alternative to smoking.

BionicCigs offers a starter pack which includes everything that the individual needs to use the product. Different colors and tastes are offered in the starter pack. A full line of [accessories](#) and replacements are offered as well.

InBoundMarketingPR is an Inbound Marketing Public Relations Company that specializes in brand building such as search engine optimization, search engine marketing, website design and redesign, social media and content development and marketing.
