The best web design and development agencies evaluated and ranked by bestwebdesignagencies.com

The best web design services have been released by bestwebdesignagencies.com for March 2010. KompoZer was named the number three HTML software from among thousands of applicants based upon a rigorous evaluation process performed by an experienced research team.

Online PR News – 31-March-2010 Plymouth, IN – The March 2010 rankings of the best [web design services](#) have been unveiled by bestwebdesignagencies.com. The number three position was earned by KompoZer for the HTML software category as decided by the research team with the independent authority on the best web design and development firms. The firm was selected from among thousands of other firms based on the quality, effectiveness, and ease-of-use of the software.

KompoZer is based on Gecko, the layout engine inside Mozilla; it's a super-fast, very reliable, standards conformant engine maintained on a daily basis by a wide community of developers. Its remarkable support of XML, CSS and JavaScript offers the best authoring platform on the market. Its architecture based on XUL makes it the most extensible editing tool ever. KompoZer is a stand-alone tool; hence its small size and fast speed. This has earned KompoZer recognition in the industry as the third best HTML software for March 2010.

The independent authority on the best [web design company](#), bestwebdesignagencies.com, launched in 2009 seeking to find the best [web design firm](#) and development firms in the industry. An assigned developed a unique set of evaluation criteria for each category that would separate the best firms from the rest in the industry. Even more information is available on the site beyond the independent rankings including a full directory listing of web design and development firms, news and information, and much more.
