Premium Electronic Cigarette

Premium Electronic Cigarettes has continued to make an effort to support smokers of all kinds. While most brands are out there targeting the biggest group of smokers, Premium E Cigs have great offers for those who only smoke socially, regular smokers, and heavy smokers.

Online PR News – 30-July-2010 [Premium E Cigarettes](#) has continued to make an effort to support smokers of all kinds. While most brands are out there targeting the biggest group of smokers, Premium E Cigs have great offers for those who only smoke socially, regular smokers, and heavy smokers. They also offer electronic cigars for those cigar smokers out there that have been banned from their favorite bars and restaurants.

The Social Smokers (less than a half a pack a day) are given the option of a disposable electronic cigarette for \$14.99 that produces 500 puffs before throwing it out. While there is not a cost savings on this option, it allows social smokers to take this e cig into the bars and vape rather than standing outside. The other kit great for social smokers is the PR110 Electronic Cigarette Kit with One battery for \$49.95. This option will produce costs savings as it can be recharged and the cartridges can be changed. The final choice for those concerned about transport of their [Electronic Cigarettes](#) is the Pocket Kit of the On-The-Go Kit that price at \$45.95 and \$49.95 respectively. These electric cigarettes come with a carrying case for the e cig and the On-The-Go kit charges the battery as well.

The Regular Smokers (half a pack to 1.5 packs per day) are given a wide range of options from Premium E Cigarettes. All of the Social Smoker options except the disposable will satisfy most regular smokers, but those who want a second battery are able to step up to the PR110 kit that has two batteries and six cartridges for \$69.95. Ryan Kibbe of Madison, WI said, "I didn't think anything would replace my parliament lights until I tried the Premium PR110 Electronic Cigarette Kit." The PR110 kit will save regular smokers up to \$1500 a year.

Heavy smokers will want to go with the PR111 Kit that contains a longer battery to prevent charging being required as often. It has two batteries just like the PR110 kit and costs \$79.95. This kit is great for heavy smokers because the last thing they want to do when they need nicotine is charge a battery or switch one

out. Joe Sweeney said, "The PR111 has kept me going all day without having to charge a battery. The two long batteries met and exceeded my needs."

For Cigar smokers, Premium E Cigarette offers a great disposable electronic cigar for \$24.99 that comes in a variety of colors and flavors. This will produce 600 puffs of vapor which will blow away a single cigar. Premium also offers rechargeable kits starting at \$74.99 that will keep cigar smokers going for a long time before having to refill or buy more cartridges. The top of the line kit comes with enough cartridges to take 18,000 puffs for \$99.95.

The Smokers who want to be unique can purchase the custom batteries kit at premium and sport a design not too many people have. When you want to break away from the usual, these are great options and very attractive. Consumers can now save with our [Premium E Cig Coupons](#) too!

Premium E Cigarettes won the Excellence in Innovation award from Electronic Cigarette Nation this week and they continue to impress ECN. They are one of the few established, strong, and recognizable brands out there to offer electronic cigarettes for all kinds of smokers.
