

New Clear Tarps From MyTarp.com Perform In Subzero Temperatures

MyTarp.com announces the release of new clear tarps for use on patios and outdoor enclosures. Made of 30 MIL. vinyl, the tarps perform at temperatures down to -40 F.

Online PR News – 30-August-2010 MARIETTA, GA -- MyTarp.com, a provider of multi-use tarps, announces a new clear tarp that performs at subzero temperatures.

The 30 MIL clear vinyl tarp is designed for patio, outdoor and construction enclosures. The heavy duty tarps are heat sealed on every edge to prevent tearing and brass grommets are placed every two feet to prevent air leaks. Since the tarps are 30 MIL, they are resistant to scratches and tears and have outstanding cold weather performance.

The clear tarps are also available in 20 MIL weights that perform well at temperatures down to -20 F. For heavy duty needs, MyTarp.com offers a string reinforced clear tarp that provides added strength. The new 30 MIL. clear vinyl tarps are available in a variety of sizes including:

- 5' x 7' 30 MIL. clear tarps
- 8' x 8' 30 MIL. clear tarps
- 10' x 12' 30 MIL. clear tarps
- 16' x 20' 30 MIL. clear tarps
- 20' x 30' 30 MIL. clear tarps

"These clear vinyl tarps are perfect for winterizing any enclosure. Some families want to enclose their porch or patio to use year-round. Others use them for their businesses to provide a warmer work environment for their employees in winter. A comfortable work environment increases employee productivity. Regardless of the use, these tarps have excellent performance throughout the winter," said Steve Gao, Customer Service Manager of MyTarp.com (<http://www.mytarp.com/>).

MyTarp.com also offers custom-made tarps. Customers need to specify if the measurements provided are the cut-size or finished-size. Cut-size is the actual size of the fabric prior to the edges being folded and heat-sealed. Finished-size is the size of the tarp following this process. To get a quote for custom clear tarps, contact store@mytarp.com with the size requirements. MyTarp.com will contact you back with one business day.

The entire line of clear tarps are available to view online at: <http://www.mytarp.com/clear-tarps.aspx>.
