Daimer's Vapor-Flo 8475

Daimer®'s new Vapor-Flo® 8075 features a top loading water chamber for water that allows the systems to operate without a water connection.

Online PR News – 01-September-2010 WOBURN, MA, U.S.A. – September 1, 2010 -- Daimer Industries, Inc.®, one of the largest vendors providing [electric pressure washers](#) globally, has begun to ship the Vapor-Flo® 8075, which includes a water chamber for hose-free cleaning. The new electric powered and heated systems operate without exhaust, a capability that makes it ideal for healthcare, hospitality, and nursing home applications.

"This is our only entry-level unit that can operate away from a water connection," said Daimer.com electrical pressure washer spokesman Matthew Baratta. "This is one of our most powerful entry-level systems."

Electric [pressure washers](#) , More Portability

The new machines incorporate a water chamber that operators can refill manually from the machine's top. This capability lets the electric pressure washers clean environments where there is no water hookup. Hookup free operation also means no water hose dragging behind the unit.

The electric pressure washers offer Daimer®'s dual-mode operation for heated and unheated operation.

The Vapor-Flo® 8075, an entry level unit, provides pressure levels of approximately 1450 psi, water flow of 0.4 GPM water flow, and top temperatures of approximately 140°F.

Each of the 8075 electric pressure washers includes an enhanced cleaning option: cleaning formulas can be added to the flow using the machines standard siphon-style/lance injection system. The machine can be purchased with options such as variable pressure, 50 Hz power, and custom lengths of hose. Water pumps are guaranteed for five years.

For additional information about Daimer®'s best electric power washers, high pressure washer machines, industrial electric pressure washers, and [1600 psi electric power washer](#) units, visit www.daimer.com/pressure-washers/ or call Matthew Baratta at (888) 507-2220. Super Max™ pressure washers are available to customers in most countries.
