**Online PR News – 01-September-2010** ONTARIO, CANADA – The **Gourmet Settings flatware** family welcomes a new arrival -- the unique and elegant curved handle design of Gourmet Settings **Windermere appetizer spoons** has fans talking.

"The uniquely curved handle makes this special spoon as much of an art piece as it is a practical piece of flatware. We are passionate about blending beauty and function with every flatware design -- and the Windermere appetizer spoon is a prime example of this commitment," says Hildy Abrams, President of Gourmet Settings (<http://www.gourmetsettings.com>).

The polished finish Windermere Appetizer Spoon boasts a uniquely curved handle that allows for an artistic and properly balanced food display. Because the curvature of the handle loops around almost to the base, the spoon can double as a napkin ring, used as a spoon rest for another spoon setting, or hung as a display when not in use.

Like all Gourmet Settings flatware pieces, Windermere appetizer spoons come with a 25-year warranty can be safely washed in the dishwasher without tarnishing or losing their sheen or shine.

The Windermere appetizer spoon is a complimentary addition to the successful **Gourmet Settings Windermere** flatware pattern. The motto of the Windermere set, 'elegant lines that balance perfectly,' continues to be a favorite product among Gourmet Settings Customers.

"These spoons provide an artistic pallet for a creative presentation of hor d'oeuvres or dessert. And being part of the Windermere flatware pattern, they have a classic, timeless beauty," said Abrams.

The 12-piece set, normally \$40, is available for a special introductory rate of \$28 through the Gourmet Settings website.
