

Free Website & SEO Review for UK Businesses

Web Design Agency & SEO Company Mischievous Media are trying to help UK businesses get more out of the internet by offering a FREE Website & SEO review.

Online PR News – 03-September-2010 [Web Design Agency & SEO Company](#) Mischievous Media are helping UK businesses get more out of the internet by offering a free Website & SEO review. Launched back in 2001, this agency has provided Web Design, [Brand Design](#) and SEO (Search Engine Optimisation) services for clients in many fields, including entertainment, sports, travel, finance, and fashion & lifestyle.

This free website review will provide a business with an assessment of the company's website, and suggest improvements in both design and usability. The free SEO review will propose modifications in the company's SEO campaign that will boost sales and enhance the company's online presence, via higher positions in search engine rankings.

If a business website is not attracting the business it should, or it simply cannot be found, then the SEO packages offered by Mischievous Media are the answer. Many businesses don't know where they should start with SEO improvements. Mischievous Media has SEO solutions that begin with a full website assessment and keyword research, continue with website structure analysis, covering such aspects as navigation, linking, coding, keywords, content, and inbound links, and culminate in action items that will invigorate the businesses online presence.

As an SEO agency, Mischievous Media has three levels of SEO packages, each of which includes monthly reviews of performance:

Small Business SEO

The Small Business SEO package is designed for a local or regional business looking to increase search engine visibility for their website without a high price tag. This package is perfect for a business not in a highly competitive market, with a website of 5-10 pages.

Medium Business SEO

The Medium Size Business SEO package is intended for a more aggressive business which is facing increased competition, or that is aiming to reach national levels in search engine rankings.

Corporate Business SEO

The Corporate Business SEO package is targeted at the most competitive national and international businesses, with e-commerce websites, who want to increase brand awareness and attract as much online traffic as possible.

Items included in the packages include:

- Comprehensive Keyword Research
- On-Page SEO
- Content Creation

- Blog Posting
- Article Distribution
- Link Building
- Social Media Integration

For more information on our Packages and our Free Website & SEO Review, see the Mischievous Media website.
