Generic Drugs Cheap launches new website to provide worldwide customers quality patient care at affordable prices.

Online PR News – 04-September-2010 Generic Drugs Cheap (<http://www.genericdrugscheap.com>) joins leading [foreign pharmacies](#) intermediary MyGlobalPharmacy.com as new affiliate.

"MyGlobalPharmacy.com has been at the forefront of connecting consumers to affordable Canada drugs though its unique network of licensed [international pharmacies](#) and [Canadian pharmacies](#) since 2004," says Sam Jackson, affiliate owner for Generic Drugs Cheap. "We are excited to be joining one of the premier prescription fulfillment service providers. MyGlobalPharmacy.com continues to negotiate the best prices for its clientele with one of the largest dispensing network with licensed pharmacies and pharmacists located in Canada, Italy, the UK, New Zealand, India, Switzerland, South Africa, Israel, and Fiji."

Drug costs in the United States as well as in other countries continue to rise at alarming rates. Too many consumers are uninsured and cannot keep up with these inflated prices. The result is that people are going without their prescription drugs, which in turn can often lead to a host of other health complications. Generic Drugs Cheap together with MyGlobalPharmacy.com provides a safe and reliable solution to consumers struggling with the high cost of prescription drugs.
